

- **Choose** an appropriate Bible translation you're already familiar with, but it does not have to be the same one each time.
- **Start** slow and have fun with it! Don't be too hard on yourself!
- **Encourage** your family & friends to join you! Review with someone weekly or monthly...

As you review, be ready for prompts from the Holy Spirit (a word, thought, phrase, or verse He'd like you to remember, meditate on/think about).

Thank the Lord for that prompt! That's one way that God and the Bible comes to life! Tell someone about it & pray together!

Meditating on scripture makes **memorizing** easier;
Memorizing scripture makes **meditation** deeper!

"For the word of God is living and active..."

Hebrews 4:12

How is that true in/for you, now?

STEP 1 Start with a Bible verse you already know, or part of a verse you know (reference too)! The next month, (or whenever), do a different verse. Here's an option – do a verse you don't know, now & then.

STEP 2 Then, as God leads, add a passage, then a 2nd...

STEP 3 Then, as God leads, add a chapter, then a 2nd...

STEP 4 Then add a book, then a 2nd... (*only as God leads you*)

Some people only do Steps 1 & 2, with 20-50-100... verses.

The point is not to memorize to check something off, nor to forget, etc., but memorize to remember! Memorize to keep in mind – so you can meditate on it (chew on, reflect, review, soul wash, etc.) God's word! Review what you know throughout the day; add when ready!

**What will you memorize/meditate....
...between now & May 20xx
(end of current school year)?**
